

Are you between 18 and 26 years old and engaged for the environment and sustainability? Do you live in Germany, France or Poland? And do you want to become part of a cross-border network of young people engaged for the environment?

Then “Let’s not waste the planet”, unite your efforts and become part of a unique exchange project!

In three meetings between October 2020 and September 2021 we want to get to know each other and exchange about our experiences fighting for Climate Justice, sustainability and environmental protection in our countries. Together, we will have a hands-on-experience to make our environment more sustainable, raise our voices in creative ways and reach out to decision makers with concrete policy proposals.

The working languages will be French, German and Polish. Knowledge of these or other languages is of course appreciated, but by no means required in order to participate, as our team will facilitate the communication.

When and where?

Part I: 16/10/2020 - 22/10/2020 – Buckow (Brandenburg-region), DE

Part II: 17/02/2021 - 23/02/2021 – Krzyżowa/Wrocław (Lower Silesia-region), PL

Part III: 16/09/2021 - 23/09/2021 – Provence-Alpes-Côte d'Azur-region, FR

How to participate?

The project Let's not WASTE the planet is financed by the Erasmus+ programme of the European Union as well as by the Franco-German Youth Office. **Thanks to this support, travel costs within the allowances of the Erasmus+ guidelines are covered. A participation fee of 60 EUR for participants from France or Germany and 150 PLN for participants from Poland applies.**

In order to participate, [fill out the pre-inscription form under this link](#). The participants will be chosen according to their motivation and in order to create a group as diverse as possible in all regards. Priority will be given to those who are able to participate in all three parts of the project. **A first selection of participants will start around the end of July 2020.**

In the context of the current pandemic, any unforeseen developments might lead to modifications of the program, the dates or the places of our meetings. We are keen on offering you an exchange in real life but will of course adapt our concept in order to achieve a safe and healthy experience for our participants and our team!
